

Section V Reactivity Data			
Stability	Unstable		Conditions to Avoid
	Stable	X	
Incompatibility (<i>Materials to Avoid</i>) Can react with oxidizing materials.			
Hazardous Decomposition of Byproducts Carbon dioxide and carbon monoxide may form when heated to decomposition.			
Hazardous Polymerization	May Occur		Conditions to Avoid Air, heat, and dusting conditions.
	Will Not Occur	X	
Section VI Health Hazard Data			
Route(s) of Entry:	Inhalation?	Skin?	Ingestion?
Health Hazards (<i>Acute and Chronic</i>) Inhalation: may irritate the respiratory tract. Ingestion: Based on animal data, this material is presumed to be only slightly toxic. Skin: May irritate skin. Prolonged or repeated skin contact may cause dermatitis. Eye: Causes moderate eye irritation.			
Carcinogenicity: NTP? IARC Monographs? OSHA Regulated?			
Signs and Symptoms of Exposure			
Medical Conditions Generally Aggravated by Exposure			
Emergency and First Aid Procedures In case of contact, immediately flush skin or eyes with plenty of water for at least 15 minutes. If inhaled, remove to fresh air.			
If large amounts were swallowed, call a physician immediately. Get medical attention if irritation or breathing difficulty develops.			
Section VII Precautions for Safe Handling and Use			
Steps to Be Taken in Case Material is Released or Spilled Remove all sources of ignition. Ventilate area of leak or spill. Spills: Clean up spills in a manner that			
Does not disperse dust into the air. Use non-sparking tools and equipment. Reduce airborne dust and prevent scattering by moistening with water. Pick up spill for			
Recovery or disposal and place in a closed container.			
Waste Disposal Method Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Dispose of			
container and unused contents in accordance with federal, state and local requirements.			
Precautions to Be Taken in Handling and Storing Keep in tightly closed container, in a cool, dry, ventilated area. Isolate from incompatible substances. Avoid dust			
formation and control ignition sources. Employ provisions in accord w/ accepted engineering practices in processes capable of generating dust and static electricity.			
Other Precautions This material is expected to be slightly toxic to aquatic life. When released into soil, this material may biodegrade to a moderate extent, this			
material Is not expected to evaporate significantly. When released into water this material is expected to readily biodegrade, evaporate significantly or significantly bioaccumulate			
Section VIII Control Measures			
Respiratory Protection (<i>Specify Type</i>) NIOSH Approved. If exposure limit is exceeded, a full facepiece respirator w/dust/mist filter.			
Ventilation	Local Exhaust	X	Special
	Mechanical (General)		Other
Protective Gloves Rubber gloves and lab coat, apron or coveralls		Eye Protection Chemical Safety goggles or full face shield.	
Other Protective Clothing or Equipment Maintain eyewash fountain and quick-drench facilities in work.			
Work/Hygienic Practices
