

SIHA Isinglass granulated

Revision date: 04.04.2006 / 13.10.2008 Date of printing: 13.10.2008

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)

1. Identification of the substance/preparation and of the company/undertaking

Identification of the substance or preparation:

SIHA Isinglass granulated

Identified uses: Product for Wine treatment

Revision date: 04.04.2006 / 13.10.2008

**Supplier (manufacturer/
importer/downstream
user/distributor):** E. Begerow GmbH & Co.

Produktmanagement
An den Nahewiesen 24
55450 Langenlonsheim

Telephone: +49 6704 204-0

Telefax: +49 6704 204-121

**E-mail (competent
person):** SDB@begerow.com

**Dept. responsible for
information:** Produktmanagement

information Telephone: +49 6704 204-0

2. Hazards identification

Critical hazard to man and environment:

To our knowledge, no harmful effects for man under normal conditions of use.

3. Composition/information on ingredients

chemical characterization (preparation):

dried swim-bladder of different kinds of Fish.

Full text of R-phrases: see section 16.

4. First aid measures

General information:

No special measures are necessary.

Following inhalation:

Provide fresh air.

After skin contact:

Subsequently wash again with: Water.

Following eye contact:

In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. In case of troubles or persistent symptoms, consult an ophthalmologist.

after ingestion:

Rinse mouth immediately and drink large quantities of water.

Information to physician:

Treat symptomatically.

5. Fire fighting measures

Suitable extinguishing media:

Water. Carbon dioxide (CO₂). Foam. Dry extinguishing powder.

Identification of the substance or preparation:

SIHA Isinglass granulated

Page 2 of 3

Revision date: 04.04.2006 / 13.10.2008 **Date of printing:** 13.10.2008**Extinguishing media which must not be used for safety reasons:**

High power water jet.

Special exposure hazards arising from the substance itself, combustion products, resulting gases:

hydrocarbons.

Special protective equipment for fire-fighters:

In case of fire: Wear self-contained breathing apparatus.

6. Accidental release measures

Personal precautions:

Avoid contact with eyes.

Environmental precautions:

No special environmental protection measures are necessary.

Methods for cleaning up:

Remove mechanically, placing in appropriate containers for disposal.

7. Handling and storage

Handling:**Information for safe handling:**

Avoid generation of dust.

Precautions against fire and explosion:

No special fire protection measures are necessary.

Storage:**Requirements for storerooms and containers:**

Keep container tightly closed in a cool, well-ventilated place. Keep container dry.

Information about storage in one common storage facility:

Do not store together with: Acid. Water.

8. Exposure controls / Personal protection equipment

Exposure limit values:**Technical measures:**

No special technical protective measures are necessary.

Personal protection equipment:**Respiratory protection:** Respiratory protection not required.**Hand protection:** Hand protection: not required.**Eye protection:** Framed glasses.**General protection and hygiene measures:**

Wash hands before breaks and at the end of work.

9. Physical and chemical properties

General information:**State of matter:** Powder**Paint:** off-white yellow**Odour:** characteristic

10. Stability and reactivity

Materials to avoid:

Water. Acid.

Hazardous decomposition products:

Carbon dioxide. Carbon monoxide.

11. Toxicological information

Acute toxicity:

Toxicological data are not available.

12. Ecological information

Persistence and Biodegradation:

Method:

According to the present state of knowledge negative ecological effects are not expected.

Known or predicted distribution to environmental compartments:

Bioaccumulative potential:

No indication of bio-accumulation potential.

13. Disposal considerations

Appropriate disposal / Product:

Recommendation:

The disposal of the product has to be carried out in accordance with the legal requirements. EWC waste codes are strictly industry-oriented, therefore waste classification has to be done by the waste producer.

Contaminated packaging:

Recommendation:

Cleaned containers may be recycled.

14. Transport information

Additional information

Additional information:

Not a hazardous material with respect to transportation regulations.

15. Regulatory information

16. Other information

Further remarks:

The above information describes exclusively the safety requirements of the product and is based on our present -day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

Further remarks:
